

SAFER SCHOOLS APP www.oursaferschools.co.uk/ni

The Department of Education have launched an app on the Safer Schools platform which has been provided by iNEQE Safeguarding Group on a trial basis during this COVID-19 crisis. The app is currently used widely across the rest of the UK. These are challenging times for all of us and the safeguarding & child protection support provided through this app will be of use to parent/carers and pupils. Of particular note will be the specific resources linked COVID-19 contained within the resources section and I would encourage you to review these at your earliest opportunity.

The app, downloaded on either the App Store or Google Play, may be accessed by parents/carers and links to a landing page, welcome pack including relevant QR codes and social media graphics are provided below. This app provides invaluable information and support during these times when children & young people are at home for extended periods and are perhaps experiencing anxiety about the ongoing situation.
